Independent Auditor's Report

Board of Directors
Make-A-Wish Foundation International
Phoenix, Arizona

We have audited the accompanying statements of financial position of Make-A-Wish Foundation International as of December 31, 2009 and 2008, and the related statements of activities and changes in net assets, functional expenses, and cash flows for the years then ended. These financial statements are the responsibility of the management of Make-A-Wish Foundation International. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Make-A-Wish Foundation International as of December 31, 2009 and 2008, and the changes in its net assets and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

MAKE-A-WISH FOUNDATION INTERNATIONAL
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

Make-A-Wish Foundation International (Foundation) is a not-for-profit organization with thirty-five chartered international affiliates. The Foundation is organized and is operated exclusively for the charitable purpose of increasing the opportunity of children of the world with a life-threatening medical condition to realize their wishes.

Reporting Entity

The accompanying financial statements include only the accounts and transactions of the Foundation. The international affiliates are separate entities with separate boards of directors and as such are responsible for, and maintain custody of and generate their own financial resources. Accordingly, the accounts and transactions of the international affiliates are not included in these financial statements.

Basis of Presentation

The Foundation prepares its financial statements in accordance with the American Institute of Certified Public Accountants, *Audit and Accounting Guide for Not-For-Profit Organizations* (Audit Guide). Under the Audit Guide, the Foundation is required to report information regarding the financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets as follows:

Unrestricted Net Assets

Unrestricted net assets are not subject to donor imposed stipulations and are those currently available at the discretion of the Board of Directors for use in the Foundation's operations, in accordance with its bylaws.

Temporarily Restricted Net Assets

Temporarily restricted net assets are those which are subject to donor-imposed stipulations that may or will be met by the actions of the Foundation and/or the passage of time.

Permanently Restricted Net Assets

Permanently restricted net assets are subject to donor imposed stipulations that they be maintained permanently by the Foundation. Generally, the donors of these assets permit the institution to use all or part of the income earned on related investments for general or specific purposes.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make a number of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Cash and Cash Equivalents

The Foundation considers all highly liquid assets with a maturity of three months or less when purchased to be cash equivalents. Cash and cash equivalents may include cash on hand or held by financial institutions.

Contributions Receivable

Unconditional promises to give (contributions receivable) are recognized as revenues in the period the promise is received and as assets, decreases of liabilities or expenses depending on the form of the benefits received. Conditional promises to give are recognized when the conditions on which they depend are substantially met. Unconditional promises to give that are to be collected within one year are recorded at net realizable value. Unconditional promises to give that are expected to be collected in future years are recorded at the present value of their estimated future cash flows. The discounts on those amounts are computed using risk-free interest rates at the time of the unconditional promise to give. Amortization of the discounts is included in contribution support. Management provides for probable uncollectible amounts through a charge to operations and an increase to a valuation allowance based on its assessment of the current status of individual receivables. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a reduction of the receivables.

Investments

Investments are recorded at fair value. Investment income includes interest, dividends, and if applicable, realized and unrealized gains and losses.

Equipment and Related Depreciation

Purchased equipment is initially recorded at cost and donated property and equipment are recorded at the fair value at the date of gift to the Foundation. Maintenance and repairs are charged to operations when incurred. Betterments and renewals in excess of \$500 are capitalized. When property and equipment is sold or otherwise disposed of, the asset account and related accumulated depreciation account are relieved and any gain or loss is included in operations. Depreciation of property and equipment is computed on a straight-line basis over the estimated useful lives, generally three to seven years.

Impairment of Long-Lived Assets

The Foundation reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell. Management does not believe impairment indicators are present at December 31, 2009 and 2008.

MAKE-A-WISH FOUNDATION INTERNATIONAL
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Contributions

Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on the existence and/or nature of any donor restrictions. All donor-restricted support is reported as an increase in temporarily or permanently restricted net assets depending on the nature of the restrictions. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished or a donor removes a restriction), temporarily or permanently restricted net assets are reclassified to unrestricted net assets and reported in the statements of activities and changes in net assets as net assets released from restrictions.

Donated Assets and Services

Donated marketable securities, equipment, and other non-cash donations are recorded as contributions at their estimated fair values at the date of donation, if an objective basis is available to measure the value of such items. The Foundation pays for most services requiring specific expertise. However, if such services or assets are donated and the value is ascertainable, the fair value is reflected in the financial statements as revenue and expense. The Foundation recorded \$1,464,951 and \$1,600,390 of in-kind contributions for airline flights, hotel accommodations and other professional services during the years ended December 31, 2009 and 2008, respectively.

Volunteers donate significant amounts of their time to the Foundation's mission; however, these donated services are not reflected in the financial statements since these services do not meet the criteria for recognition as contributed services.

Agent on Behalf of Affiliated Organizations

In certain cases, the Foundation may act as an agent for an affiliated organization. These agency transactions are treated as pass through funds and are carried as funds held as agent for affiliates until they are distributed.

Advertising

Advertising costs are expensed as incurred.

Functional Allocation of Expenses

Expenses are directly allocated to the various programs and support services when possible and indirectly allocated based on staff time spent in that area and the best estimates of management.

Income Taxes

The Foundation is a not-for-profit charitable organization which qualifies as a tax-exempt organization under Section 501(c)(3) of the Internal Revenue Code and, accordingly, no provision for federal or state corporate income taxes has been made in the accompanying financial statements. The Foundation qualifies for the charitable contribution deduction under Section 170 of the Internal Revenue Code and has been classified as an organization that is not a private foundation under Section 509(a).

Income Taxes (Continued)

NOTE 3 – FAIR VALUE OF FINANCIAL INSTRUMENTS

The Foundation uses fair value measurements to record fair value adjustments to certain assets to determine fair value disclosures. Fair value measurements provides a comprehensive framework for measuring fair value and expands disclosures which are required about fair value measurements. Fair value measurements defines levels within the hierarchy as follows:

- Level 1 – Unadjusted quoted prices for identical assets and liabilities in active markets;
- Level 2 – Quoted prices for similar assets and liabilities in active markets (other than those included in Level 1) which are observable for the asset or liability, either directly or indirectly; and
- Level 3 – Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

NOTE 10 – CONCENTRATION OF CREDIT RISK

The Foundation's cash balances on deposits are insured by the Federal Deposit Insurance Corporation (FDIC) up to specified limits. Balances in excess of FDIC limits are uninsured. As of December 31, 2008, cash balances were insured by the FDIC up to \$100,000 per depositor per bank. During 2009, this coverage was increased to \$250,000 effective through December 31, 2013. In October 2008, the FDIC announced the Temporary Liquidity Guarantee Program. One element of that program provides for an unlimited guarantee by the FDIC of funds held in an insured depository institution in non-interest-bearing transaction deposit accounts through June 30, 2010. The unlimited guarantee of non-interest-bearing transaction deposit accounts is over and above the \$250,000 coverage on all deposit accounts. As of December 31, 2009 and 2008, a portion of cash balances at financial institutions exceeded the balance insured by the FDIC.
